

APPLICATION FOR LEVEL PAYMENT CALCULATION

You qualify for Level Payments Calculation if:

1. You have been resident for a minimum of one year in your current house
 2. You have good credit with the City of Burlington
 3. You have no outstanding balance with the City
-

I further understand and agree to the following:

- ⌘ Recalculation any month in the year if the data shows payments are too low
- ⌘ That the City reserves the right to discontinue level payment should a negative credit history develop
- ⌘ That I am paying an amount 2% higher than my calculated bill based on a 13-month average. I further understand that my bill may be increased or reduced yearly depending on usage.
- ⌘ Upon disconnection of utilities at current residence I understand that there will be a final bill that will require payment of **all outstanding charges** regardless of level payment amounts.
